

Edible Peep Slime

Materials:

- Marshmallow Peeps
- Microwave-safe bowl
- Microwave
- Spoon
- Vegetable or canola oil
- Confectioners' sugar

Instructions:

1. Put 5 Peeps in a microwave-safe bowl and microwave on high for 30 seconds. Using a spoon, stir in about 1 teaspoon neutral oil until the mixture is stringy and combined. Slowly stir in confectioners' sugar until you've reached your desired consistency (we used about ¼ to ½ cup sugar). Transfer the slime to a work surface lightly dusted with more sugar. Cover your hands with sugar to prevent sticking. Knead gently until the slime is smooth. *TIP: Just like with any other candy treat, don't eat too much of this fun edible experiment!*
